

AZON TEX PRO

Tex Pro – direct to garment inkjet printer for beautiful full – color prints.

Azon Tex Pro adopts a brand – new digital printing mode that can be used as the substitute of screen printing, and transfer printing. It realizes color printing without plate making or repeated color register, while it is highly waterproof, wearing resistant.

It prints directly with amazing speed up to 70 light shirts or 15 dark shirts per hour. It can print beautiful full – color prints on light and dark colored textiles like: t-shirts, towels, jeans, aprons, bags or else, with superb adhesion of ink. It is very easy to use and has a high profit return.

Azon's water – based white ink was specially developed for printing on dark garments by creating a solid surface on the printing area before applying the CMYK inks. This white layer is digitally applied directly onto the desired location on the garment, allowing to immediately applying the CMYK colors. There is no more need for thousands of garments pieces per run to make the printing process profitable. Azon TexPro allows short and medium runs as well as personalized and variable data printing. Tests can be immediately evaluated and changes implemented without delay.

Model	Azon Tex Pro
Printing technology	Ink-jet (Micro Piezo Head)
Printing size	Max 420 x 600 mm
Control code	ESC/P Raster
Ink cartridges	▶ Color C,M,Y,K + 4W
	▶ Ink Water textile pigments
Print speed	50 light shirts per hour / 15 dark shirts per hour
Printing resolution	Max 1440 dpi
Power requirements	AC 220V, 59W (in standby mode 5W)
Interface	USB, LAN Network
Environment conditions	Temperature 15 to 30°C, Humidity 50 to 70% RH
Printer driver	Win XP/ Vista/ 7
Material used	Cotton, polyester, silk...
Dimensions	890mm L x 850mm W x 525mm H, Weight 70kg
Accessories	RIP Software
